

Architectural Products

What will your workplace need to support next – a merger, a reorganization, a dramatic shift in technology? Ohio Desk specializes in helping companies blend architecture, furniture, and technology to create a more flexible, effective workplace.

Moveable Walls

Ohio Desk provides ceiling height Moveable Walls offering significant advantages over conventional drywall including simplified installation, 100% reusability, superior power, voice, data capabilities, accelerated depreciation (same as furniture) and low environmental impact contributing to LEED Points.

Access Floors

An access floor is the foundation of a high performance work place, offering the best way to route power, data and HVAC. Access Floors support change and efficiencies, limitless flexibility and lower cost reconfigurations. Preassembled wiring and cabling components with modular connections simplify original installation and future change.

Lighting

Ohio Desk provides lighting that improves the aesthetics of the workplace, and benefits the business through lower energy consumption, improved productivity, and increased user comfort and control.

Sound Masking

Sound Masking can dramatically improve the privacy in your workplace with a system designed to render speech unintelligible to the casual listener.

Flooring

Ohio Desk can provide and install carpet, vinyl, rubber and ceramic floor. Our specialty is lifting workstations and installing new modular carpeting beneath. This eliminates the need to tear down and rebuild workstations.
