

# Design Services

Ohio Desk can provide basic interior design services or work hand-in-hand with the Architectural and Design community to assist with furniture specifications and layouts. Our in-house team is capable of doing preliminary design development and space planning, along with creating final furniture drawings, finish selections and project management.

We enjoy working with local Architectural and Design firms to help make the furniture selection and specification process easy. We act as consultants to your designer and provide a single point of contact. With the enormous variety of furniture manufacturers and options available, we help propose solutions that are appropriate for the needs of each individual client and the vision of the design professional.

## **Design & Consultant services include:**

- *Design Development: Field Survey, complete an Inventory of existing furniture and Needs Analysis*
- *Provide Preliminary Layout and furniture budget*
- *Create final furniture drawings and specifications*
- *Provide or Assist with Furniture Selections and Interior Finishes*
- *Complete furniture installation drawings and attend any construction meetings as deemed necessary*
