

Sustainability

Steelcase Wege Wind Energy Farm, located in Panhandle, Texas

Disassembled Think Chair ready for recycling

Our Mission

Through our facilities, people, products and services we conduct business with our customers by promoting environmentally sensible practices that:

- Reduce waste
- Promote recycling
- Conserve resources

Our People

- We are committed to education of our employees on practices and behaviors that are healthy for them and healthy for the environment.
- We encourage our employees to broaden their knowledge of sustainable initiatives by promoting professional accreditations and organizations.

Our Facilities

- We actively engage in responsible recycling in our sales offices and operations center.
- By investing in upgrading our facilities, we have maintained a downtown Cleveland location for over 90 years.

Our Services

We can assist our customers with landfill diversion of their existing furniture assets they no longer have a need for through:

- Recycling opportunities
- Brokering furniture
- Donation
- Re-use program
- Refurbishment

Our Products

We partner with vendors who are committed to developing manufacturing processes and products that meet a variety of industry accepted standards such as:

- Cradle to Cradle Certified
- Greenguard Indoor Air Quality® Certified
- SCS Indoor Advantage™ Certified

Examples of our sustainability initiative:

- All sales offices and showrooms recycle paper, glass, plastic and aluminum.
- Our operations center recycles packaging materials such as plastic, cardboard and wood pallets.
- We utilize paper products that contain post consumer recycled content.
- Developed a monthly e-mail green tip to employees on small ways they can contribute to our goals.

 30% Post Consumer Waste
