Web-Based Solutions

To help simplify furniture management and make your process more efficient, Ohio Desk offers Esync, a web-based application that allows you to:

- Order products and services.
- Retrieve product and technical information.
- View customized product catalogs.
- Control who has access to the site and how orders will be routed for approval.
- Integrate with your eProcurement system.
- View the status of your orders anytime including purchase order information, acknowledgements, schedules, ship dates, installation dates and invoices.
- Review reporting of purchases by time period, manufacturer and model number.
- Requisition inventory stored with Ohio Desk instead of ordering new.
